

Dr. Diego Osvaldo Parigi  
Liski S.r.l.  
Via Veneto 8  
I - 24042 Brembate (BG)

Oberhofen, 7<sup>th</sup> June 2022

Dear Mr. Parigi,

Liski has been active in the market for the ski sport equipment and safety devices for the past 45 years.

In this long period, the collaboration between FIS and the company has been valuable to both parties in developing new products and in implementing processes to ensure the safety of the athletes and participants.

Liski has been the supplier of the past Olympic and Paralympic Games starting from Torino 2006 to Beijing 2022, at many editions of FIS World Championships, FIS World Cups, the Universiade and many other events. In particular, Liski many times provided sport and safety equipment for International Snowboard competitions.

Currently Liski is an “Official FIS Sport Equipment Supplier” for all FIS disciplines and a preferred supplier of the “Bring Children to the Snow” and “Snow Kids days” campaigns.

FIS is very pleased with this cooperation. Liski is able to provide support to the LOCs in preparing and planning the distribution of the sport and safety equipment necessary to stage an event successfully.

With a team of experienced Liski technicians and the high-quality products and technological equipment, the safety devices guarantee the best standards available on the worldwide market.

Kind regards,

INTERNATIONAL SKI AND SNOWBOARD FEDERATION
