To Whom It May Concern,

I hereby confirm that the Sierra Nevada 2017 FIS Freestyle and Snowboard World Championships Organizing Committee selected LISKI Sport Equipment Company as a supplier for a variety of technical stuff.

For many years LISKI has been a strong partner delivering state of the art products and prominent level of service. LISKI has supplied different equipment for competition operations and ski slopes safety, including race bibs and gate flags for all disciplines. I particularly want to stress the timeliness of delivery, even if the Organizing Committee sometimes ordered in a hurry, and the accuracy of the products brought. Last, but not least, LISKI Oscar Cruz and Modesto Santus were on-site to secure the service, which has been a factor in the success of the event.

The Organizing Committee would like to thank LISKI for his contribution to the World Championships and highly recommend them wherever their products are required.

Sincerely,

Eduardo Valenzuela
Mountain Manager
